

Parabit's Cell Phone Charging Kiosks are a great solution for clients to charge their cell phones and other electronic devices before boarding a plane and when waiting for baggage. The kiosk can be placed in schools, malls, stadiums, hospitals and office buildings. The Cell Phone Charging Kiosk provides an opportunity to generate revenue streams by applying a fee for device charging. You no longer have to miss a call or cut a call short to save the battery on your phone!

The Cell Phone and Device Charging Kiosk features the ability for the user to select the device charging time. (The charging amount will depend on how long the device is plugged in, the model type and battery quality.)

Benefits

- Small Footprint- ideal for tight spaces
- All major credit and debit cards accepted
- Increase In Foot Traffic for business operators
