

Courtesy Telephones Utilize the MOST Effective Technology!

Parabit is a premiere solution provider when it comes to Courtesy Telephones. Our in-house manufacturing capabilities, allows Parabit to focus on quality.

We continuously study market trends and enhance our telephones to ensure a reliable product. When designing our Courtesy Telephones we take into account style and function, thus developing various options.

Our Courtesy Telephones may be utilized with a static graphic or a digital display. We also integrate our Courtesy Telephones with digital signage.

Kiosk Telephones Integration at Its Best!

Our Vandal Resistant Telephones are an attractive addition to any self service location. Designed to be installed within in 24/7 locations to offer your customers added services & benefits.

We also integrate our kiosks with telephones to offer the ultimate self-service solution.

Parabit's Kiosk Telephones come in an array of finishes and colors. Please take a look at our website for additional information.
