

911/Emergency Telephones

Loud and Clear!!!

TP-ST-R1

Reliable communication in case of an emergency is a top priority for any facility. Parabit Telephones provide superior communication for:

- Airports
- Stadiums
- Parking Lots
- Walking Trails
- Remote Areas
- Amusement Parks
- College Campuses
- Parks/Recreation Facilities

Since our phones are made of durable high impact materials, you can be sure they can withstand even the harshest conditions. You can remotely program, test and retrieve call activity on all of Parabit's Telephones.

Our **PhoneChecker Software** supports all remote features. Parabit's Telephone Access Control board can be added to our telephones as an option.

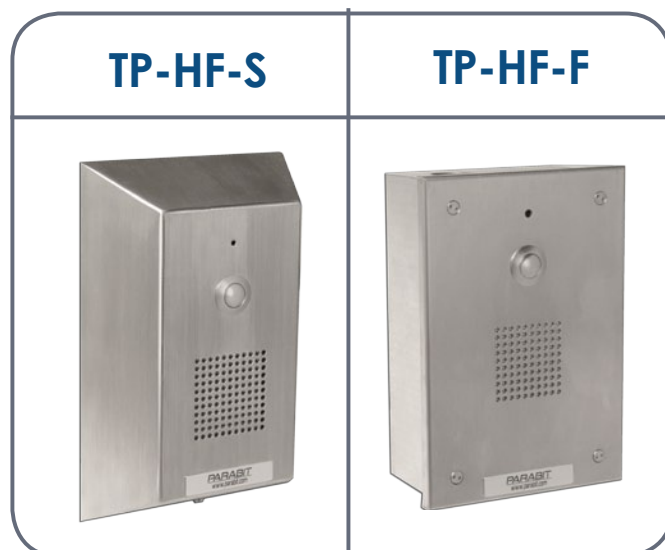

Options:

- Noise Canceling Microphone
- Ringer
- Dual Door Lock Controller
- Volume Control
- Cellular
- VoIP

Parabit's Hot Dial and Auto Dial Telephones provide vandal resistant, reliable, remotely programmable communication to your Customer Service/Security Departments.

Applications include:

- Customer Service Centers
- Central Security Stations
- Parking Lots
- Stairwells
- College Campuses
- Support Services
- ATM Vestibules
- Inmate Telephones
- Telephone Banking
- Kiosk Telephones
