

Parabit's Cell Phone Charging Kiosks are a great solution for clients to charge their cell phones and other electronic devices before boarding a plane and when waiting for baggage. The kiosk can be placed in schools, malls, stadiums, hospitals and office buildings. The Cell Phone Charging Kiosk provides an opportunity to generate revenue streams by applying a fee for device charging. You no longer have to miss a call or cut a call short to save the battery on your phone!

The Cell Phone and Device Charging Kiosk features the ability for the user to select the device charging time. (The charging amount will depend on how long the device is plugged in, the model type and battery quality.)

Benefits

- Small Footprint- ideal for tight spaces
- All major credit and debit cards accepted
- Increase In Foot Traffic for business operators

Print on demand brochures, tickets, statements application forms, pay stubs, company policy and procedures.

HIPAA/Check-In

Health care organizations have turned to kiosks to facilitate the handling of individual's health and medical information. Parabit's HIPAA/Check-In Kiosks are more cost and time efficient than hiring staff to manually check clients in thus providing patients with vastly improved service.

Parabit's HIPAA/Check-In kiosks have a small footprint, allowing deployment in offices with limited space such as clinics, pharmacies, laboratories, medical groups and hospitals.

The kiosk may be applied for:

- Appointment Scheduling
- Benefits Management
- Co-Payment Collections
- Complete medical history questionnaire
- Consent Forms
- Patient Education
- Pay Stub Printing
- Policy and Procedures
- Sign HIPAA and consent forms
- Verify registration information
- Wayfinding

Job Application/Recruiting

Improve communication within your organization or business with a Parabit Job Application/Recruiting Kiosk. The kiosks are Web-based and eliminate the expense of paper based application.

The kiosk provides many self-service functions including:

- Distribution of valuable information to employees, customers or general public
- Provide fast, easy, and secure access to information
- Customized welcome screens
- Tracks usage for statistical reports

Virtual Concierge

Parabit's Virtual Concierge Kiosk can inform, educate, assist and entertain your guests 24/7 through on-demand printing of information and marketing material. Our self-service kiosk solution combines cutting edge LCD technology, progressive design and proprietary software.

With Parabit's Virtual Concierge software, an unlimited amount of brochures can be displayed on your kiosk! The Kiosk generates advertising revenue through digital signage and digital brochures. Typical return on investment is less than one year after deployment in high traffic areas!

Benefits

Cost Effective

- Eliminate the need to mass produce brochures (Go Green effort)
- Reduce storage and transportation fees
- Print real-time information

Marketing

- Analyze statistical information obtained from the kiosk
- Display different content as the user approaches the kiosk

Revenue Generation

- Implement a Pay Per Use of Kiosk Fee
- Promotion of products and services via coupon printing

Security

- Auto refresh when user steps away from the kiosk
- Secure Web Browser
- Flexibility to authorize which Web sites may be displayed

Wayfinding

Parabit's Wayfinding Kiosks are a web-based solution designed to provide visitors with an informational directory. The kiosk implements a touch screen for navigation. The user is taken to an interactive splash screen which can display advertising or helpful tips. Next the visitor is taken to a main menu consisting of a series of category buttons (i.e. Places to Stay, Places to Eat, Where to Shop, Real Estate, ATM's).

Sub-categories provide the visitor with a listing of member organizations for the visitor to choose from. The kiosk also implements a category in which the visitor can attain extensive information about the member (i.e. address, phone number, specials, amenities, photos, availability).

Features

- Provide maps w/ dynamic paths & directions
- Change data remotely
- Reduce Personnel
- Real-time import of data base content
- Simple user interface for data management

Gift Cards / Loyalty Cards

Parabit's Gift Card and Pre-Paid Debit Card dispensing kiosk gives consumers the flexibility to choose what items they purchase without having to wait on a long line or a lengthy transaction.

The customer is able to design, print and purchase personalized gift cards through the kiosks user friendly interactive interface. First the customer enters a desired value, then a personalized message may be added to the card by using either the touch screen or keyboard. The client can pay either by entering a customer code or by swiping a credit card, then the kiosk prints a personalized card and a receipt for the purchase.

Benefits

- Reduced wait times
- Payment processing service
- Digital Signage advertisement sales
- Real-time monitoring of all peripherals
- Load value or dispense pre-value cards
- Secured Web-based transaction reports
- Branding on face of card promotes your business
- Increased impulse purchases and total spending
- Increased efficiency for customer service personnel

Ticketing Kiosks

Parabit Ticketing Kiosks not only attract more people to buy tickets in a non-traditional manner, they are also user-friendly. Seating is selected by looking at the overview of the venue. Kiosk point of sale software gives customers the ability to pay with a credit card or a loyalty card for promotional deals. Tickets can be printed on the client's own card stock for branding purposes.

Ticketing Kiosks can also be integrated into your existing system to provide a turnkey solution. By utilizing digital signage, ticketing kiosks offer revenue generation opportunities by sale of digital advertisements on the kiosk LCD screen.

Benefits

- Reduced que waiting
- Reduction in employee overhead
- Create convenience for customers
- Opportunity for cross selling tickets for other events
- Kiosks located in public areas present opportunity for impulse buying
- Strong visual presence of clients that can be placed anywhere in public
- Establish more distribution points through off-site location kiosk deployments
